MOUNTING FLANGE 40"X17"
 SLAB OR FOOTER RECOMMENDED PAD/FOOTER SIZE: LENGTH: 43" x 20"

SPECIFICATION:
 BFPProducts Inc. enclosures are manufactured to ASSE-1060 standards and designed to be used to help protect Backflow Prevention Devices from freezing conditions and vandalism. Factory assembled construction will include a gelcoat shell backed with chop-strand polyresin bonded fiberglass, internally insulated using polyurethane spray-foam.
 WEIGHT: 22 LBS

Options:

- HEAT SOURCE - HEAT TAPE #H30
- T-TURF - Turf installations require elevated discharge drain to facilitate flange bury.

ASSE-1060
